EDUCATION

Lingnan University Sep 2026 – Jun 2028  
Bachelor of Social Data Science(Economics and Data Science)  
Hong Kong Polytechnic University, Hong Kong Community College  
Sep 2024 – Jun 2026

Associate in information technology(IT)  
Graduate With Distinction

CERTIFICATIONS

Python data structures (include NumPy, SciPy, Pandas, and Matplotlib ) 2026  
[Certified by: Google Data Analytics Professional Certificate/ PolyU Hong Kong Community College]  
C++ 2024  
[Certified by: PolyU Hong Kong Community College]  
JAVA 2025  
[Certified by: PolyU Hong Kong Community College]  
SQL 2026  
[Certified by: Google Data Analytics Professional Certificate/ PolyU Hong Kong Community College]  
Data visualization (Tableau, Matplotlib ) 2026  
[Certified by: Google Data Analytics Professional Certificate]  
Spreadsheets (Excel ) 2025  
[Certified by: Google Data Analytics Professional Certificate/ PolyU Hong Kong Community College]  
Statistics 2025  
[Certified by: Google Data Analytics Professional Certificate/ PolyU Hong Kong Community College]  
Generative AI: Prompt Engineering Basics 2026  
[Certified by: Google Data Analytics Professional Certificate]

SKILLS & PASSIONS

Languages:  
Fluent in English, Mandarin, Basic Cantonese  
Technical Skills:  
Python, SQL, JAVA, C++, Pivot Table, Generative AI, Git control  
Activities:  
Student Clubs, Volunteer Work  
Interests:  
AI, driving, Badminton, GYM

INTERNSHIP EXPERIENCE

Shenzhen Sanke Cloud Technology Investment Co., Ltd. – Shenzhen  
[Role: Software Engineer Intern] Jun 2025 – Aug 2025

- Developed and maintained backend modules for cloud-based investment systems using C++, following industrial coding standards and agile SDLC.
- Optimized data processing pipelines with advanced data structures and algorithms, improving query efficiency for large-scale financial datasets by ~15%.
- Conducted system performance tuning and debugging; leveraged logging metrics to identify bottlenecks and support data-driven optimization decisions.
- Utilized Python (pandas) for ad-hoc data validation and integration testing, ensuring data accuracy across system modules.

RESEARCH EXPERIENCE

Hotel Management System (SQL Database Project) – HKCC (Hong Kong Community College) Mar 2025 – May 2025  
[Role: Student Project Developer (Data Management Assistant)]

- Designed and implemented a MySQL relational database for hotel operations, developing complex SQL queries (joins, aggregations, stored procedures) to track occupancy, customer history, and revenue trends, with results visualized in Excel for stakeholder presentations.

Banking Application (Java GUI) – HKCC, Hong Kong Sep 2025 – Nov 2025  
[Role: Student Developer (Frontend Interface Designer)]

- Built an interactive Java Swing desktop application featuring virtual fund transfer and cash withdrawal functions, with real-time balance synchronization and input validation (e.g., insufficient balance alerts, negative amount prevention).
- Designed an intuitive user interface with clear transaction history logging, enabling users to track all virtual banking activities; tested edge cases to ensure system stability and data consistency.

Food Delivery App Prototype (Axure RP) – HKCC, Hong Kong Sep 2025 – Nov 2025  
[Role: UI/UX Prototype Designer]

- Designed an interactive high-fidelity prototype for a food delivery platform using Axure RP, featuring user flows for restaurant browsing, menu selection, order placement, and real-time delivery tracking with dynamic panel interactions and conditional logic.

Theme Park Visitor Behavior Analytics – HKCC Sep 2025 – Dec 2025  
[Role: Consultant (Task F – Payment & Spending Analysis)]

- Analyzed 1,056 theme park visitor responses using Chi-square tests and multiple regression in Excel/SPSS to identify payment behavior patterns and predict willingness-to-pay.

EXCHANGE EXPERIENCE

The 20th Shenzhen International Finance Expo 2026 - Shenzhen May 2026  
[Role: Student Representative / Participant]

- Participated in the 20th Shenzhen International Finance Expo (May 2026), exploring FinTech innovations including AI-driven finance and cross-border payment systems with 300+ exhibitors.

PROFESSIONAL DEVELOPMENT

Hong Kong Trade Development Council (HKTDC) Sep 2026 – Jun 2027  
[Role: Trade Ambassador – TAP 2026/27 Cohort]

- Selected for the HKTDC Trade Ambassador Programme (TAP) 2026/27 Cohort; participate in HKTDC trade and business events, with the TAP Certificate awarded upon completing at least three scheduled activities.

PandaAI 4th Factor Competition – Alpha Factor Research 2026  
[Role: Participant (Factor Research & Backtesting)]

- Submitted alpha factors to a year-round open factor pool, constructing and backtesting factors through an AI-assisted research workflow covering factor discovery, data analysis, and performance validation.
